## MACERATOR

### Description

Fast, efficient and safe disposal of incontinence waste and sanitary pads – Incomaster® is trusted by thousands of care facilities around the world to reduce the risks, issues and costs associated with bags of waste.

Through eliminating incontinence waste immediately, the Incomaster® can:

- Reduce unpleasant odours on site
- Reduce infection risk to staff and residents
- Help keep rooms clean and tidy

The Incomaster® is trusted as best-practise for incontinence waste disposal by - leading care providers worldwide. Pads are macerated at in less than 2 minutes – no bagging or carrying of offensive waste is needed. The Incomaster® also includes a disinfection cycle to assist with your cleaning standard operational procedures.

The Incomaster™ delivers real and measurable benefits to both you and those in your care:

- Hygienic – greater infection control
- Low cost – no waste collection required
- Easy to use – put incontinence products in, close lid, start
- Quiet operation
- Low maintenance if the instructions are followed
- Fast and efficient cycle times – up to 4 pads in 2 minutes
- Converts disposable products into fine slurry allowing for standard flush through drainage
- Requires only a cold water source, electricity and drainage
- Bugban® – Active antimicrobial built into the plastic, wipe clean exterior
- Water curtain cleans hopper and impeller
- Easy installation and full service back up
- Low maintenance with smart technology.

### **Technical Performance**

- Cycle Characteristics:  
96 seconds | Touch Free Open | Sanitization Cycle | 4 kg load
- Water:  
26 litres per cycle used | 5.5 litres per minute cold water
- Electricity:  
1300 W motor | < 0.01 kWh per cycle | 230V / or 400V
- Inlet, Outlet & Cistern:  
¾" BSP Inlet | 2" BSP multi-fit P-trap Outlet
- Metrics:  
W: 432 mm | H: 946 mm | D: 607 mm | Dry Weight: 83 kg
