## **RIGID PATIENT TRANSFER SYSTEM FOLDABLE**

### **PRODUCT DESCRIPTION**

Large rigid patient transfer system.

This product allows the transfer or movement of the bedridden patient with maximum simplicity and minimum physical effort.

Its shape allows the rolling of the central part for After use it can be folded in two for a smaller footprint and store it comfortably.

Designed for professional and intensive use, in clinical hospital wards, nursing homes, rehabilitation centers, and in the operating room.

Highly professional Italian product.
